CONSIGNOR NOTES

Jagger is a friendly steer who is easy to handle and is halter broke. He is very sweet and would make a great addition to anyone who is doing Agritourism. He is out of one of the sweetest cows on the farm. He loves attention, loves being combed, and is great with our granddaughter. , All proceeds from his sale will go directly to St. Jude Children's Research Hospital in honor of Naomi Grayce Sparks. Letter from Naomi's Mom reads: , Naomi Grayce Sparks was 3 months old when we noticed her left pupil had a milky-white look under direct light and immediately knew something wasn't right. We did some research and feared she may have something serious going on. I took her to an eye doctor the next morning, and what we feared was confirmed. By the end of the week, we were on a plane headed to St. Jude Children's Research Hospital in Memphis, TN. Naomi was officially diagnosed with retinoblastoma the following week. There was a large tumor in her left eye that was taking up 70% of her eye socket. Due to the size and aggressiveness of the tumor, Naomi had an enucleation (eye removal) the following week. She was then tested for the RBI gene, which causes tumors to grow in both eyes. Naomi tested positive for this gene in the peripheral blood of her right eye. Within the next few months, she healed from her eye removal surgery, was fitted for a prosthetic eye, received protective glasses, and had checkups in Memphis every 3 weeks. She also developed 3 small tumors in her right eye that were lasered on the spot. Naomi is now 17 months old and has not had a new tumor since October 2025! She still has checkups every 6-7 weeks in Memphis, but we have been praising God for a clear report for almost a year now! St. Jude has been the biggest blessing through this difficult time. Not only will we never receive a medical bill, they also cover travel expenses, food, and housing for each trip. Every employee you meet is so loving and helpful. You meet other families going through the same thing you are and can lean on each other. It becomes such a special place where everyone truly feels like family. I thank God for St. Jude and Naomi's medical team often! The Hall family at East Cherokee Highlands has been a second family to me for over 15 years now. I am so thankful for them and their family. Russ and Beth Hall at 1611 Ranch / East Cherokee Highlands have graciously decided to auction off one of their Highland steers in honor of Naomi. All proceeds from this steer will go directly to St. Jude Children's Research Hospital. We thank you for your generosity and give all the glory to God.

LOT 2 • Almosta Farm's Harrigan (D)

DOB 03/17/2025 REG 72181

COLOR Brindle CATEGORY Bull

CONSIGNOR Almosta Farm

CONSIGNOR NOTES

Harrigan is brindle, well-muscled, and structurally correct, with great feet and a great disposition to top it off. His dam, Almosta Farm's Haven, is an Impact Dam that has consistently produced exceptional offspring no matter the bull. He is also the grandson of our 2010 National Champion, Skye High Koal. His sire, J Bar T's Xtreme, has been our main herd sire for the past nine years and is still going strong. Harrigan has a long list of "older" genetics from Trafalgar, Northern Divide, and Canadian genetics on the dam's side: GOF, Kiyiwana, and Sunset Farms. Harrigan has had limited show ring experience, being Division Champion at the 2026 Cattlemen's Congress, Division Champion at the UP State Fair in Escanaba, MI, and finally Division Champion and Reserve Grand Champion Bull at the Michigan State Fair in Novi, MI. Being able to keep our bulls for an extended period of time, we can see the consistency they can add to our fold, and I am confident Harrigan can do that with your fold.

LOT 3 • Kesabe's Moonshine Road (PV,D)

DOB 11/09/2023 REG 68314

COLOR Yellow CATEGORY Bull

CONSIGNOR Kesabe Farms

CONSIGNOR NOTES

Kesabe's Moonshine Road is an impressive yellow bull with a show record that already speaks for itself. Before his second birthday he was named Reserve Grand Champion Bull at the 2025 New York State Fair, Grand Champion Bull at the 2025 Boonville Oneida County Fair, and Reserve Champion Senior Bull Calf at the 2025 National Western Stock Show. As a calf, he was Senior Bull Calf Champion at the 2024 Boonville Oneida County Fair. Sired by Kesabe's Homebrew and out of SSH Eau Claire, Moonshine Road traces back to several well-known breeding programs, including Skye High, Trafalgar, LiTerra, and Dundonald. He is a well-balanced bull with correct conformation, good muscling, and sound feet and legs. His dam has a great udder, a trait he should pass on to his daughters. Moonshine Road also has an excellent disposition, and much of his show career was spent on the halter with junior exhibitors. He has been out working with cows this summer and is ready to go to work for you. With no registered progeny on the ground yet, he offers a buyer the chance to be among the first to put this proven young bull's genetics to use. For any questions, please reach out to kesabefarmspa@gmail.com.

COLOR Dun CATEGORY Bull

CONSIGNOR Piney Highlands

CONSIGNOR NOTES

LEA Rhys Evans is a proven five-year-old dun Highland bull who combines an excellent disposition with the consistency and functionality every breeder wants in a herd sire. He is the sire of the 2026 NWSS Junior Reserve Grand Champion, demonstrating his ability to produce quality offspring with the look, structure, and presence demanded in the show ring. Rhys Evans consistently stamps his calves with excellent conformation, added bone density, and correct tracking. His fall 2025 calf crop averaged just 60 pounds at birth, and multiple heifers from the crop have been retained in our herd. LEA Rhys Evans is an outstanding opportunity to add a proven, functional, and productive herd sire to your breeding program.

COLOR Red CATEGORY Bred Heifer

CONSIGNOR LEA Farms

CONSIGNOR NOTES

LEA Tora comes out of a tremendous AHCA Impact Dam, LEA Flash, who produced 14 natural calves in a 17-year lifespan. Flash had an exceptional udder that stood the test of time and many calves, as well as solid, correct feet and legs. Tora is expected to resemble her mother in all those respects. Tora is sired by Skye High Convoy, a division winner at the NWSS and the sire of a fair number of tremendous offspring. Through her sire, Tora is a half-sibling to the 2025 Grand Champion Heifer at the Yooper Classic (UP State Fair), who also turned out to be one of the high-selling heifers at the 2026 NWSS (Skye High Nirvana Lass). Tora is bred to Somerset Brodie Axel, a big, rugged silver bull who has been producing some outstanding offspring, and is confirmed pregnant for a spring 2027 calf. She is NT821 negative, BVD-PI negative, brucellosis calfhood vaccinated, and qualifies for entry into the western states that still require Bangs vaccination.

CONSIGNOR Koblasz Farms

CONSIGNOR NOTES

Koblasz Farms Dacey Mae (PV,D) comes from a cow proving her value the old-fashioned way-by consistently putting calves on the ground. Her dam, Apple Hill Isabel Mae, has calved each of her three years with Koblasz Farms at an average interval of 364 days. She's pacing for AHCA Impact Dam recognition and gives Dacey exciting maternal potential. Dacey brings plenty of her own appeal, with the substance, depth, femininity, and Highland presence to make her an exciting show prospect. Behind her are distinguished Canadian and Scottish championship bloodlines and proven genetics on both sides. She loves brushing, treats, and neck scratches, and is well acclimated to the Florida heat. Show her as a heifer, bring her back as a cow-calf pair, or build a program around her-Dacey offers the maternal potential to produce offspring that can compete in the ring and command attention on sale day.

Semen Buying Tips

- At public auction, semen is typically sold by the unit and not by the lot, unless stated differently from the block. Ex. You bid \$100 on a lot of 5 straws, you owe \$500 if you win the bid. This is the single most prevalent mistake that new buyers make at auctions.
- It is important to research shipping terms before bidding on semen. Questions to ask may include: Where is semen stored? Does storage facility have shipper tanks? How fast do you need to take possession of semen?
- When purchasing semen, put forth the same effort in researching DNA status, pedigree etc that you would when you are buying a live lot.
- NEVER buy semen that isn't collected at a National Association of Animal Breeders (NAAB) certified facility.
